Filtration, Purification & Separation Solutions

晶元
Advanced Membrane Material

JY-T32A

油品净化过滤器

Diesel Fuel Filtration

Gas Station Application

Excellent filtration effect
The must choose refueling equipmet for construction machinery

MICROPOROUS MEMBRANE MATERIALS

晶元®
膜过滤器系统

New Generation Membrane Separation Refined Filtration System

型号 Model: JY-T32A
工作压力 Working Pressure: 0.2~0.3Mpa
流量 Flow Rate(According to oil quality): 50L/min (max)
滤芯精度 Precision: 5~25μm
滤芯材质 Filtering material: Polymer membrane materials
电压 Voltage: DC12V/24V/220V
接口尺寸 Flange Mouth: DN25
适用油品 Apply to oil: Diesel fuel, Aviation fuel
尺寸 Measurement: 680×480×880mm

JY-T32

Filter Technology Solutions Partner

主要特点/FEATURES

Can effectively intercept and separate impurities, colloid, water and micro particles in oil
The oil becomes clear and transparent after filtration, and the cleanliness level is greatly improved, effectively extending the service life of mechanical equipment
Comply with the national environmental protection regulations, no pollution consumables, no diesel consumption, no need to clear sand and slag
The polymer membrane filter elements can be used repeatedly after blowing, save the cost of consumables
The equipment operation is simple, and there is a professional after-sales team tracking service, let you have no worries
Be suitable for gas station/ construction machinery/ and other places need oil filtration

Jingyuan has a one-stop product development and production system from the development of membrane materials to finished products
To provide users with satisfactory dedicated filters and their systems

MICROPOROUS MEMBRANE MATERIALS (膜型号及规格)

Membrane filter order models	Nominal Pore Size
J22-330 L/H	0.5~15 μm
J22-400 L/H	
J30-970 L/H	
J30-980 L/H	0.5~25 μm
